# What is an introducing broker?

SuperForex partners are rewarded for attracting new clients and partners, and for encouraging clients to trade more actively.

The main type of partnership is called introducing broker (IB shortly) and receives 2 types of commission:

**UP TO 75%** **Commission from spread**

Up to 75% of the spread, which is a unique offer among brokers.

For example, the spread for EUR/USD is 2.0 pips, partner's commission is 1.5 pips which is \$15 for a Standard lot.

**UP TO 10%** **Monthly in-out commission**

A percentage of the difference between deposits and withdrawals of referrals.

You will receive a 3% fee to start, which will could be increased to 10% depends from your activity.

# IB certificate

Each partner receives a certificate as proof that you are affiliated with SuperForex. This document gives you the following rights:

to register customer accounts for your clients upon their request;

to deposit or withdraw funds for your clients in case they are unable to do so;

to issue coupons for bonuses that will stimulate current and potential traders;

to organize Forex educational courses on behalf of SuperForex.

# Affiliate links

This is a unique code for each partner, that looks something like ABCD123.

If you give your clients your SuperForex affiliate link and they open an account and make a deposit – you earn a commission.

The more clicks on the link, the more clients will be added to the affiliate group.

For example, a link to our site would be:

[superforex.com/?x=ABCD123](https://superforex.com/?x=ABCD123)

## How does it work?

For you to start receiving commission from client transactions, they must follow your affiliate link, open an account and make a deposit.

If the client follows the link but does not open an account, his actions are still stored in Cookies. When a client registers an account after a while, he will automatically be added to your referral list.

# How to refer clients

Place your referral link on blogs, forums, social network profiles, and personal websites - in as many places on the Internet as possible.

To make affiliate links convenient, we often use QR codes on partners' banners.

Communicate with traders online and offline: answer their questions, and tell them about SuperForex's unique trading conditions:

Minimum deposit is \$1

Leverage up to 1:3000

Bonuses up to 3000%

More than 25 payment methods

More than 35 local currencies support

About 400 trading instruments

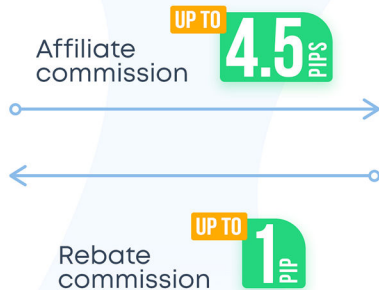

# Rebate system

The point is that you share part of your affiliate income with your customers, motivating them to trade more, which leads to higher commissions for you, and so on.

In the Partner's Dashboard, you set the amount that you are willing to share. For different customers, it may be different amounts including zero.

# Bonus for new clients

This offer is also called Super IB or x2 bonus, and consists in doubling the amount of the deposit.

A partner can provide it to a new referral if they deposit \$100 and \$1000.

The Super IB bonus can't be combined with any other bonuses and can't be withdrawn. Profit over the bonus can be withdrawn.

# Sub-introducing broker

If your client becomes a partner or you attract another partner with their own clients, this new partner is called a sub-introducing broker.

In this case, you earn as usual IB commission and additional sub-IB commission from deals of your sub-IB referrals.

## 0.1 <sup>\$1-2</sup> pips Sub-IB commission

Sub-IB commission amounts to 0.1 pips from the trades of your sub-IB referrals, which is approximately \$1 – \$2 per trade.

If you have many partners who want to become Sub-IBs, we offer a 5-level affiliate program. You will receive a percentage of referral transactions of each of the 5 levels.

# Introducing office

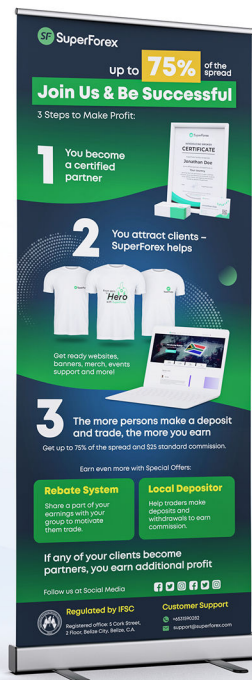

## Additional partnership types

To reach a new level, top partners open an introducing office. The Company helps with the printing of promotional materials, advertising on social networks, and in some cases with an office rental.

In most cases, the office becomes a training center where various seminars, training, etc. are held.

Currently, we have training centers in the following cities:

-  Benin City, Nigeria
-  Lagos, Nigeria
-  Dar es Salaam, Tanzania
-  Dodoma, Tanzania
-  Nakuru, Kenya
-  Sasolburg, South Africa
-  Kuala Lumpur, Malaysia
-  Klang, Malaysia

# Local depositor

## Additional partnership types

This is a specially trusted person who has the right on behalf of the company to perform banking operations for depositing and withdrawing funds.

This offer will be relevant in places where there is no access to banks or payment systems.

**Local depositors receive a special IB certificate.**

The Company can individually encourage local depositors by adding local transaction clients to their affiliate group.

# SF money

For example, you accept funds from the client to replenish his account, for example, \$100. Order an SF money voucher for \$100 with a 7% discount, i.e. for \$93, and replenish the client's account with \$100. Your profit is \$7.

With continuous activity, the partner accumulates Net cash flow within a month and uses the discount for the whole next month in accordance with the table:

Discount	Net cash flow
7%	under \$1000
8%	\$1000 - \$3000
9%	\$3000 - \$4000
10%	over \$4000

Now you can exchange your voucher not only for dollars, but also for your local currency, if it is available in your country.

# FAQ

## How much do partners earn?

Active partners earn \$1,000 or more per month, and beginners earn about \$100.

## Can a partner make money without Forex knowledge?

To succeed, you need knowledge not so much in Forex as in Internet marketing, site management, as well as an audience in social networks.

We also offer our free training course on Youtube, which will allow you to quickly fill in the gaps in Forex knowledge.

## How exactly does the Company help partners?

At the initial stage, you will receive a digital IB certificate for free, you can get personal layouts of business cards, leaflets, and other promotional products for free, as well as banners for promotion on social networks. The next step is to order a free affiliate site.

Further investments of the Company, such as office rent, and financial assistance in holding events, are determined by the interests of the Company and the prospects for income in each case individually.
